Request for Abandoning the Application

Commissioner for Patents

P.O.Box 1450

Alexandria, VA 22313-1450

Sir:

Applicant respectfully request that patent application Serial Number 09/830,862 be abandoned.

Applicant applied for a patent in the US with no agent assistance and without knowledge of the US patent law.

The USPTO application is identical in subject matter to Applicant's original patent granted in Republic of Macedonia on 03/27/1995. The invention was also publicly exposed and earned awards at three exhibitions 1994, 1998 and 1999.

Recently it has been brought to Applicant's attention that the invention Neutralizer-Transformer is not patentable because it was patented in Republic of Macedonia and publicly exposed more than one year prior to the date of the application for patent in the United States. These facts operate as a statutory bar to patentability of Applicant's invention under 35 USC Sect. 102(b) and Sect. 102(d), and they are grounds for Applicant's request.

Very respectfully,

Applicant:
